

CLUB CAR Bracket Installation Diagram

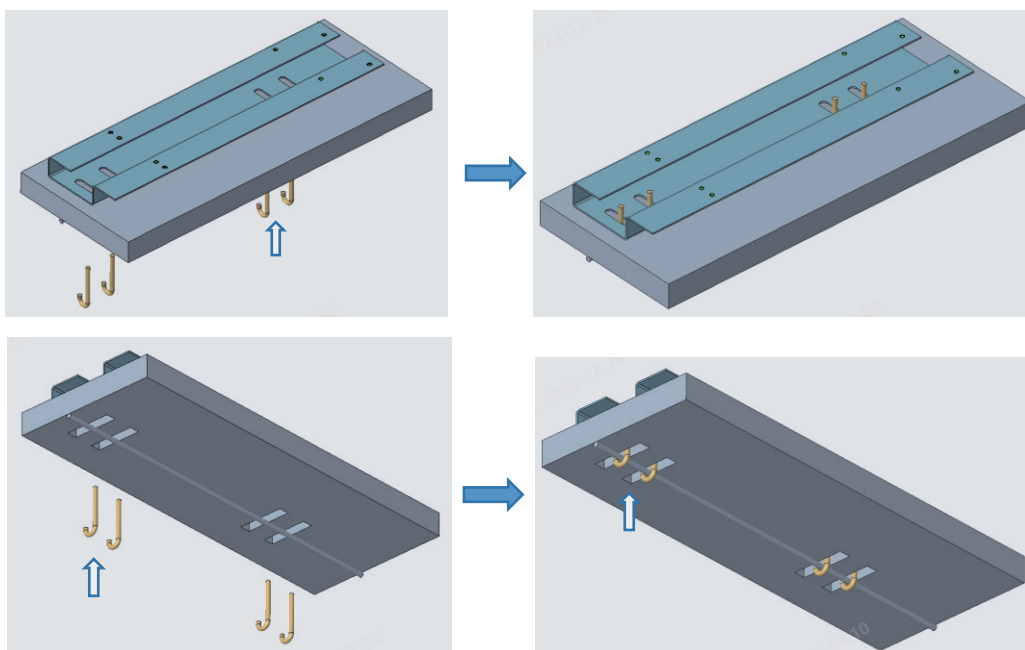

(1) 将支架上的腰形口与车体支架上的开槽对齐后垂直放下。

Align waist-shaped opening on bracket with the slot on battery compartment floor, then put it down vertically.

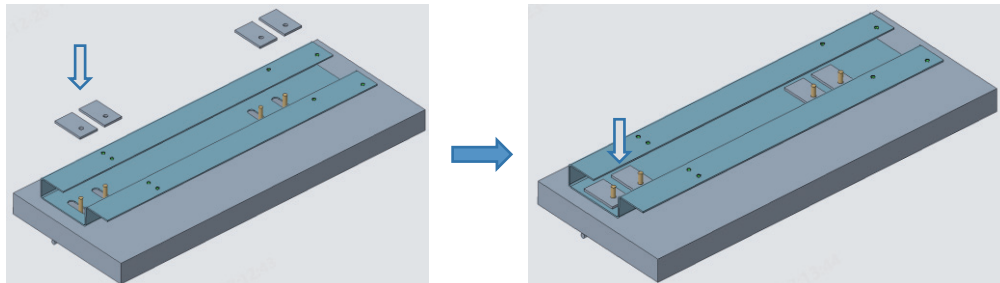

(2) J 形螺栓从车体下方向上伸入开槽处，使其钩住车体上的固定横梁。

Insert the J-shaped bolt from below the cart body upward into the slot, hooking it onto the metal crossbeam on the cart body.

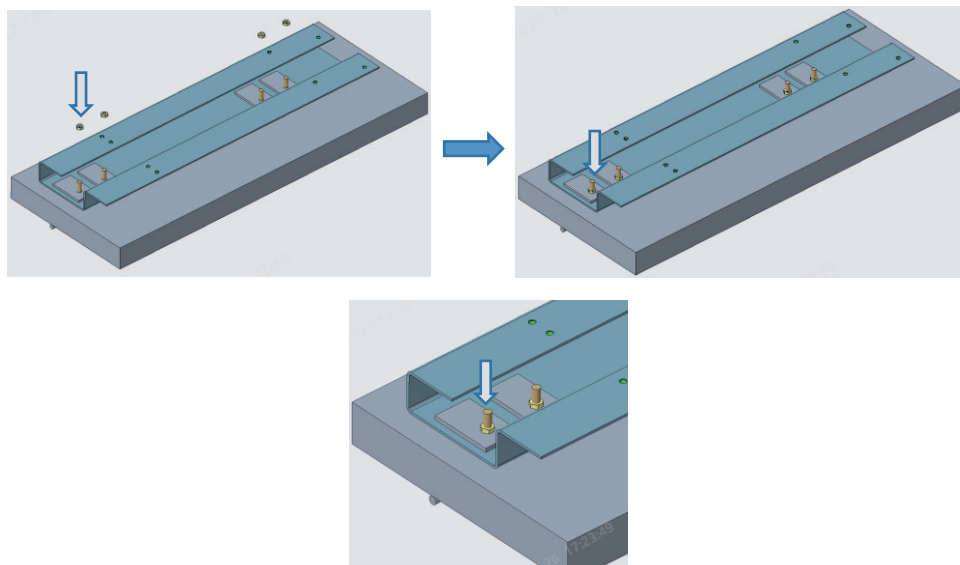

(3) 维持住 J 形螺栓的位置，将五金块从上方装配至每个螺栓上。

Maintain the position of the J-shaped bolt, assemble the hardware block from above onto each bolt.

(4) 维持住 J 形螺栓的位置，将 M8 防滑螺母锁紧至螺栓上，至此支架安装完成。

Maintain the position of the J-shaped bolt, tighten the M8 anti-slip nut onto the bolt. The installation of the bracket is completed.

(5) 使电池箱体上固定脚的孔位与支架上螺母的孔位对应，锁紧螺栓则完成了电池的固定。

Align the battery box bracket hole with the mounting bracket, then tighten the bolts to secure the battery in place.
